Electro Magnetic Equipments

Linux Magnetics – one of the most demanded brand in the industrial market as leading manufacturer, exporter and supplier of **Electro Magnetic Equipments** that are appropriate for diverse industries. We are considered as prime suppliers in the market for offering the wide range of magnets, magnetic equipments, magnetic products, magnetic appliances, electromagnetic equipments, and their respective spare parts. We are even engaged in offering the wide range of suspended **electromagnetic overband separators**, **electromagnetic ferro filter**, **electromagnetic suspension magnets**, that are designed to eliminate tramp metal from the product carried by belt, vibratory feeders or inclined planes. If not fixed permanent suspension magnets or electro suspension magnets are more suitable.

Different Types of Electro Magnetic Equipments

- Dry Powder Magnetic Separator
- Eddy Current Separator
- Electro Magnetic Drum Separator
- Electro Magnetic Vibro Feeder
- Gauss Meter
- Wet Slurry Electro Magnetic Separator
- Whims
